Bringing Value to Our Members by Evaluating Practice Suppliers

Healthcare Management and Information Technologies

Our goal is to advise our clients on all aspects of information technology and practice management, so that our physician clients can focus on patient care and regain a sense of professional satisfaction.

With vast number of options for electronic medical records (EMR) and practice management systems, many practices find choosing a new system overwhelming. For those who have chosen a new system, they now face the daunting task of implementing that system. Healthcare M.I.T. has the knowledge and experience to guide your practice smoothly through the selection of software and transition to the latest technology.

Alan Sivek's consulting service provides your practice with the appropriate solution to meet your needs. As an expert in both electronic medical records (EMR) and practice management systems, he provides practices with disciplined strategic planning for the integration of new technology.

HEALTHCARE MANAGEMENT AND
INFORMATION TECHNOLOGIES
4533 N.W. 60TH ST.
COCONUT CREEK, FL 33073
PHONE: (954) 480-6111
ASIVEK@HEALTHCAREMIT.COM
WWW.HEALTHCAREMIT.COM

Physicians and practice managers will find these services useful:

- Assess information technology needs
- Manage the software selection process
- Establish the implementation plan
- Oversee the conversion process from the old system to the new system
- Ensure proper staff training
- Implement a practice website
- Establish appropriate and measurable performance indicators
- Assess HIPAA compliance risks

Mr. Sivek has consulted for almost 20 years with large and small medical practices and integrated healthcare systems. He holds an MBA, a bachelor degree in accountancy, and is certified in healthcare information and management systems.
